

VOL. 46—No. 36

Thursday, March 17, 1949.

Prominent Welling Resident Passes

Funeral service for the late Mrs. Ann Wilde, wife of Arthur A. Wilde, was held in the Stake House, Thursday, March 10. Mrs. Wilde passed away on Monday, March 7th, after a lingering illness.

The funeral service was under the direction of A. E. Foote, first councillor in the Welling Ward Bishopric. The opening song "O My Father" was sung by the choir led by Ira McBride. Invocation was given by E. K. Bullock and the second song "I Need Thee Every Hour" was by the choir.

The first speaker was Alvin Bullock of the Welling Bishopric who spoke of Mrs. Wilde's faithfulness in doing whatever she was called to do. She was Secretary of the Relief Society for a number of years and her reports were always made out perfectly and on time. Her home was one of faith, serenity and Christian virtue. Mr. Bullock told of the pre-existence of our spirits and the life hereafter. Many words of comfort were spoken and the belief that her family would be with her again by faithfully living their religion.

A ladies trio "In Thy Form" was sung by Carrel Wolsey, Clara Peterson and Jessie Chipman.

The next speaker was Heber Allen and spoke of boarding in their home when he was a young man and of

never having seen Mrs. Wilde's surgery, although their children were small at the time. He spoke of their always wanting to do the right thing in religious, social and business matters. Mr. Allen quoted extensively from the Acts of the Apostles, also the words of Moody and William Shakespeare on the life hereafter. He mentioned too, of the present day prophets and their words of wisdom. He closed his remarks with the prayer that their grief would be assuaged and that they would be comforted.

A solo "Lean on My Arm" was rendered by Karl Williams of Cardston, an old friend of the family.

Mr. Foote gave the closing remarks thanking all those who had helped in any way, and especially expressing Welling's privilege of using the Stake House, the extra work of the careaker and the services of the special nurse Mrs. Hazel Bullock. Closing song by the choir "Abide With Me" and the benediction was by C. D. Peterson. Interment was in the Temple Hill Cemetery with Evan Stringham dedicating the grave.

Mrs. Wilde leaves to mourn her passing her husband Arthur Wilde, her sons Kenneth and Dean, a foster daughter Julia Cox Bullock, two brothers Lawrence Peterson, Calgary, and A. Peterson of Burnsville.

LEGION NEWS

An interesting and well attended General Meeting of the Itaymond Branch was held in the Hungarian Hall on Wednesday, March 9th with Comrade E.M. Peterson in the chair.

Following the routine business and report on progress with the Legion Hall given by comrade Ray Attwood, the chairman of the Building Committee, an enjoyable social was held during which movies were shown, games played and refreshments served.

The motion films obtained through the Lethbridge Public Library featured:

1. "Song of the Mountain" (Jasper National Park).
2. "Sing Songs"
3. "Did You Know" (about Canada)
4. "Here Comes The Circus"

The projection machine was loaned for the evening by the School Board and was operated by Leon Barker, Science teacher of the Itaymond High School.

It is hoped that with the warmer weather in prospect it will be possible to hold the next general meeting Wednesday, April 13, in the basement of the Legion Hall.

In an attempt to organize long overdue and much desired Ladies Auxiliary to the Legion, a decision was made at the meeting to invite all war veterans and their wives for a point meeting on Monday, March 21st. Parties interested are urged to watch for detailed announcement of the arrangements.

The opportunity is taken to acknowledge further donations for the Memorial Hall:

On behalf of the late W. Depew, by M. Depew \$25.00
Previously acknowledged \$1606.80
Public contributions to date .. \$1631.80
Returns from special event \$185.10
OBJECTIVE \$4000.00

All Legionnaires are reminded that the construction work on the Legion Hall has been recently resumed and hence reporting for work at the site is urgent, especially on Saturdays. The Legion travelling exhibit, showing the progress of the drive for the Memorial Hall Fund, may now be seen in the show window of the Raymond Furniture Store.

The campaign for funds is being intensified and an appeal to all our friends is hereby made for generous support of the undertaking.

Local Happenings

Mrs. Lem Adams entertained at a birthday party recently for her husband. Five tables of whist were in spent. Out of town guests included Merrill Adams, Moose Jaw, Allen Adams and Miss Bertha Silletto, Rosemary, Mr. and Mrs. Arthur Erickson, Stirling, Mr. and Mrs. Ed Duell of New Dayton.

Firefight for the M Men and Gleaners of the Raymond Wards was held Sunday evening at the home of Miss Jolayne Dahl when a large crowd enjoyed a talk from Howard Salisbury of Lethbridge.

Firefight for Juniors and Explorers were held at the George Erickson and Gill Evans homes. Speakers at the Erickson home was Howard Melchin who reviewed the life of Wilfred Woodruff, Leslie Williams was the guest speaker at the Evans home relating some missionary experiences while in Australia. Musical numbers were also heard.

RED CROSS BLOOD DONOR SERVICE IS VITAL

In the event of a disaster, a National Blood Transfusion Service of vital importance, Maj.-Gen. F. F. Worthington, co-ordinator of civil defense for the nation, said to day at the Canadian Red Cross Society's appeal for \$5,000,000 which went into high gear across the country.

"There can be no question as to the vital importance of blood transfusion in the event of a disaster and in consequence the building up of a National Blood Transfusion Service cannot be underestimated," he told the Red Cross. "Another highly necessary point in the collection of blood is the standardization of equipment which will ensure adequate supply of parts when operating against time during emergency conditions."

This statement of General Worthington, who describes his newly created job as that of a "permanent disaster committee on a broad national scale", points up the urgency for the completion of Red Cross plans to provide a free blood transfusion service across the nation.

Already five provinces, British Columbia, Alberta, Nova Scotia, Prince Edward Island and the Montreal area of Quebec have this free service in operation and organization is under way in New Brunswick and central Ontario.

One of the main expenditures in the Society's 1949 \$5,000,000 budget is for the maintenance and the extension of this service, which when fully organized, will be the first nation wide completely free blood transfusion service in the world.

Remembering how valuable the blood and blood derivatives proved in saving lives in the last war, the Department of National Defense has announced the blood-groupings of all active force personnel in the Navy, Army, and Air Force. The program is being carried out jointly by the Canadian Red Cross Society and the medical services of the Armed Forces.

Brigadier W. L. Coke, chairman of the Inter-Service Medical Committee expressed thanks for the "splendid co-operation and assistance" provided by Red Cross to the Medical Services of the Armed Forces in the recent blood grouping of personnel in Ontario.

"Many thousand wounded Canadian Servicemen are today home with their families who without the assistance given by transfusion would have died," said the Hon. Brooke Claxton, Minister of Defence. "They owe their lives in great measure to the Canadian Red Cross Society."

Raymond Second and Third Wards held their Gold and Green ball Saturday evening. Queens crowned were the Misses Janet Turner for the Second Ward and Miss Pearl Hancock for the Third Ward. Both wards presented a floor show after which the large crowd enjoyed dancing.

Mr. and Mrs. Cliff Gough and daughter, accompanied by Mr. and Mrs. Eph Gough, motored to Salt Lake where they will visit with relatives.

TOXOID STILL RATED TOP

DIPHTHERIA PREVENTIVE

Recent outbreaks of diphtheria in southern Alberta which necessitated the closing of schools and the banning of public meetings in some districts serve as a reminder that toxoid is still the perfect diphtheria preventive. It is stated by the Health League of Canada. There would have been no outbreaks had those affected been properly immunized through toxoid injections.

It stems a pity the Health League says in this supposedly enlightened day and age that diphtheria should be taking toll in death and sickness when medical science has provided harmless toxoid, a most efficient immunizing agent. It is true that the Alberta outbreaks were isolated instances, but it is hoped, the Health League says, that they will provide food for thought among the thousands of Canadian parents who have neglected to have their children immunized against preventable diseases such as smallpox, diphtheria and whooping cough.

The picture does have some bright sides, however, and just recently the Toronto Medical Officer of Health Dr. Gordon Park Jackson, revealed that Toronto was diphtheria-free in 1948—repeating the recordbreaking year of 1910 when the city for the first time in its history reported no cases of the disease. Toronto is the only city of its size in the world ever to go through one calendar year without a case of diphtheria.

"It is to be hoped that the attainment of such a record will not induce the citizens of Toronto to become apathetic and indifferent where diphtheria is concerned," the Health League says. "They should continue to remember that toxoid prevents diphtheria."

W. I. REGULAR MEETING

The Women's Institute met week at the home of Mrs. Frank Hall with Mrs. Thomas Allen assistant hostess. Opening song "Home on the Range" with Mrs. Allen giving the creed. Roll Call was answered by a donation to the bazaar which is to be held later.

Each member also contributed one pound of food to be sent overseas. Two new members were present and two parcels are to be sent overseas.

A letter received from the Town of Itaymond requesting a representative from the W.I. was accepted by Mrs. I. Kitchen. As a project for 1949 the W.I. will sponsor a baby clinic.

Mayor William Jensen asked the W.I. to canvas the town for the Red Cross. This has been done. \$5 was donated by the Institute to this worthy cause.

Red Cross sewing was also distributed. Mrs. D.L. Paxman was nominated to represent the W.I. at the Annual Convention in Lethbridge March 25 and 26th.

Mrs. Della Woolf gave a summary of the book "The World's Great Madonnas". Door prize was won by Mrs. Kitchen. Lunch was served by the hostesses, the St. Patrick motif being used as decorations.

The many friends of Mrs. William Selman will be pleased to learn that she is much improved in health following a severe illness at her home.

Mrs. William Wiggill is visiting in Calgary at the home of her son Duane.

Welling NEWS NOTES

Mr. and Mrs. Guy S. Foote, who were married recently, are now residing on the farm at Magrath.

Mrs. LaRee Low of Boise, Idaho, is here visiting her parents Mr. and Mrs. S. F. Wilde.

A Junior Gold and Green Ball was held here on Saturday night. The hall was beautifully decorated and a large crowd was present, quite a number coming from Itaymond. Sharon Meldrum, granddaughter of Mr. and Mrs. Lloyd Holmnd was chosen as Queen. Her attendants were Jeanette Foote and Doreen Chipman. Their escorts were John Mebew, Guy Gibb and Robert Nelson. The girls wore corsages and the queen was presented with a box of candy.

Mr. and Mrs. Claude Peterson entertained the Study Group Sunday night with eighteen present. This group meets twice a month on Sunday evening after church. They are studying the Articles of Faith. Keith Bevans and Bernice Wilde are the teachers.

The Senior Green and Gold ball was held on Monday night. A large crowd was present. M.I.A. stake officers Mr. and Mrs. Jow. Stroug, Mr. and Mrs. Earl Zemp and Mr. and Mrs. James Bridge of Itaymond were present.

Miss Jessie Chipman was chosen Queen, her escort being her brother Jack. She was crowned by Mr. Alvin Bullock who reviewed her M.I.A. record. The crown bearer was Dexter Wilde, the flower girls were Audrey Wilde and Mona Mebew. Miss Nola Nelson gave a ballie demonstration. Those dancing in the floor show were Jessie and Jack Chipman, Anita Bullock, Keith Bevans, Edith Weinheimer, Byron Smith, Bernice Wilde, Kirk Bullock, Mary Nelson, Murray Bullock, Georgina Attwood, Thaine Smith, Elmer and Betty Wilde, Betty Mebew and Arvin Wilde. The orchestra was the Troubadour from Diamond City.

Herbert Weinheimer, son of Mr. and Mrs. J. Weinheimer will leave in the near future on a mission for the L. D. S. Church. Murray Bullock son of Mr. and Mrs. George Bullock leaves some time in May. Ther son, Kirk returned from a mission only recently.

Mr. and Mrs. Claude Peterson entertained the Old Folks committee of Itaymond on Wednesday night.

The Welling Light Society, holding their anniversary party on Thursday evening for married folks only. Supper will be served and the evening spent in program games and dancing.

This is Dick Nelson, alias Pierre, the versatile Frenchman whose path crosses that of comedians Wayne and Shuster so often they're beginning to think he's tagging them. Dick

CANADIAN GARDEN SERVICE

by Gordon Lindsay Smith

FIRST JOBS

It is usually impossible, and in any case most inadvisable, to attempt any outside planting or digging in the garden until the soil is well over the "muddy stage". However, there are some active jobs that can be carried out weeks before that.

One of these will be planting seeds indoors or in a hotbed. The latter is simply a bed of rich soil, protected by a wooden frame over which is a window sash and the whole thing mounted over a roof of fresh horse manure or some other material which will add artificial heat. Full construction and operation details are available in Government bulletins and these should be consulted. With a hot-bed one can start large quantities of vegetable and flower plants, things like tomatoes, cabbages, petunias, asters etc., which will be ready for transplanting outdoors after soil and air have warmed up.

If only a smaller quantity of plants is wanted the seed can be sown in flat boxes placed on a warm window sill. Soil used in these flats as in pots for an indoor planting, should be rich and also contain a fair proportion of sand and humus (rotted leaves or other vegetable material). For awhile after seeds are sown the soil in the flat should be shaded with a cloth or blotting paper and it must not be allowed to dry out.

If only a few dozen bedding plants are needed, and it is possible to buy the same later from local professional nurseries the amateur is well advised not to bother either with hot-bed or window box. Under the best of circumstances these are rather messy, and they do require close attention.

PRUNING

Another early job in the average garden will be pruning. This can be done any time from February to June with most shrubs, trees, etc. The general purpose is to remove dead growth, shape the bush or shrub and let in air and sunshine. Shrubs that bloom first thing in the spring like the Forsythia, Spiraea, etc. should not be pruned until after blooming so that flowering this season will not be spoiled. Grapes, also, need special mention. These must be pruned very early otherwise they are liable to "bleed" profusely.

PLANNING GARDEN LAYOUTS

In planning layouts of flowers, shrubs and such things about the house an important point to keep in mind is the time of blooming and also to a lesser extent, the color. One does not want to have everything in flower at the same time, and then nothing later. Also one should try to avoid any clashing of colors, though this is not so liable to happen with flowers as with, say, women's dresses.

The seed catalogue will help materially in this planning. It will list all colors, of course and also the approximate time each plant comes into flower. With that information it is comparatively easy to have a succession of bloom from Spring until freeze up. In shrubbery, for instance, the succession can start (where it is hardy enough) with the Forsythia, which flowers almost as soon as the snow goes, and end with the Buddleia or Butterfly bush, which blooms in September and October. With flowers the last planted bulbs will be the first to brighten the garden and the Spring planted bulbs—chrysanthemums, and other annuals and perennials, the latest.

Nelson's wide range of impersonations has been featured in network broadcasts ever since he returned to Canada in 1947 after fourteen years in stage, radio, film and night club acting in the United States.

ALBERTA NATURALIST KERRY WOOD TO BROADCAST

Kerry Wood, well known author of Red Deer, Alberta, naturalist and CBC commentator will broadcast a series of weekly talks over CFCN, Thursday Evenings at 10:15 p.m.

This new program, commencing March 17th, will be known as "A-round Alberta". It will be dedicated to our lovely province and the fine people who live here. Mr. Wood will chat about Alberta and Albertans.

These talks will be made possible by the Calgary Power, Limited.

Births

ZOBELL — To Mr. and Mrs. John Zohell, a son, John Walter, on March 14, at the Municipal Hospital.

PAXMAN — To Mr. and Mrs. Willard Paxman, nee Hazel Cooper, a daughter, Dixie Lee.

SMITH — To Mr. and Mrs. Dean Smith, nee Susie Reithman, of Cardston, twin boys, at the Cardston hospital.

OPPORTUNITIES ARE MADE

While back we wrote an item up proving the words of the Ontario Welfare Minister Hon. W.A. Goodell, that government gifts must always be repaid in taxes. We thought that these were wholesome words in days when people are thinking that almost everything should be free, and when most politicians are trying to convince them that government spending is a widow's curse of oil that miraculously restores itself being no believer in such political miracles, we argued: If democracy is to be maintained, thrift and initiative and a greater control of our own financial resources must help us to look after ourselves.

A critic in the Hamilton Review who, surprisingly enough signed himself "Realist," took gentle if unrealistic exception. Admitting the value of thrift and initiative, he argued that it could only spring from equality of opportunity and how could that be without equality of education? "Only one half of one percent of working or middle class people" he argued, "ever got a foot in a University door. We think the universities could debate that. But is it worth while? This 'equality of opportunity' approach is just another phase of the 'gimmie' argument, only this time instead of security it is opportunity that must be equal to that enjoyed by anyone else. We don't think this is a possibility. Because most opportunity is just someone's determination to succeed, and you don't learn that at college.

We think if "Realist" would spend an hour with a good encyclopedia he would see that most of those who have advanced far beyond their fellows to find a place there, began with a situation that "Realist" wouldn't have found encouraging. Equality of opportunity? Arkwright, who revolutionized cotton spinning, was first a barber. Stephenson, to whom we owe the locomotive, was a grease monkey in an engine pit. Spencer, the philosopher, was an engine fireman. Edison was a news hawker on the old Grand Trunk. Lord Strathcona and Lord Mountstephen were Scottish herd boys. John Herreshoff the greatest yacht designer of all time was blind. So was Homer. So was Milton. Thomas Carlyle was the son of a stone mason. Kenil of a stable keeper. Andrew Carnegie, of library fame, was once a bobbin boy in a cotton factory, and no one of them saw the inside of a college. Look down the list of the great. How many had equal opportunity, until they made it for themselves? No. We've been wrong often enough. But this is not one of those occasions.

MAN, THE SUPERIOR ANIMAL.
To a dog, his master is king and his mistress is queen. That's why dogs are so popular.

RED, WHITE AND BLUE
If "red deans" wore "blue jeans" instead of white collars they might entertain somewhat different viewpoints.

THE NEW 1949 PLYMOUTH SPECIAL DELUXE

will be on display

SAT., MARCH 19

At our show rooms

First Picture of the New Plymouth 4-Door Sedan

The Plymouth Special DeLuxe Four-Door Sedan shown above is one of the 4 new Plymouth models just announced. The others are a Plymouth Special DeLuxe Club Coupe; a Four-Door Sedan and a Club Coupe in the DeLuxe Series. Wider seats, ample head, leg and shoulder room; greater vision, increased safety and comfort are some of the claims made for these new models. Higher horsepower (97); higher compression ratio; automatic choke, and improved fuel delivery are some of the engineering advancements offered in the new Plymouth engine. Eight plastic enamel colours are available.

We will be open for front end service
Saturday and Sunday

WORLD'S GREATEST TRAVEL SYSTEM

Farmers would be well advised to give flax a place in their crop rotation plan as it will contribute to diversified production without the expense of additional mechanical equipment.

This is the conclusion of the Flax Improvement Committee in their analysis of the flax situation in the West. It is pointed out that much of the risk of growing flax has been removed in recent years by proper cultural practices and the use of new chemical weed killers which have reduced weed problems in flax growing to a minimum.

Canadian scientists have contributed many promising varieties in recent years and recommended other strains which have increased yields on the prairies and cash returns to growers.

Leading recommended varieties include: ROYAL—Moderately resistant to wilt susceptible to pasmo and under some conditions is susceptible to rust. It is a high yielder, is late maturing, and has slightly weak straw.

DAKOTA—is highly resistant to both wilt and rust and appears to be moderately susceptible to pasmo. Dakota

matures earlier and more uniformly than royal but is slightly lower in yield and oil content.

A GOOD CONSCIENCE

It takes a very finely honed conscience to be able to know where contentment ends and laziness begins.

FLAX A CONSTANT FACTOR in Day to Day Living

Free!

Flax is used in the manufacture of many every-day necessities. Linseed meal, linseed oil, paint, linoleum, oil-cloth, tires, printers' ink and cigarette papers are just a few of those necessities in which flax plays an important part. Through improved flax growing methods YOU will INCREASE YOUR YIELD PER ACRE.

This new, up-to-date, 16-page book tells how to increase your FLAX yield—how FLAX can fit into YOUR crop rotation plan—how to plan your efforts on weed control—how to combat the grasshopper menace—and many other important facts on profitable operation.

All information in this book is approved by the Manitoba, Saskatchewan and Alberta Departments of Agriculture.

FERTILIZER TESTS ON WHEAT IN SOUTHERN ALBERTA

Several different kinds of fertilizers were tested on wheat grown on various soil types in southern Alberta in the last two years. The test plots were located on fine sandy loam, loam, silt loam, clay loams, and clay in the brown soil zone in south-eastern Alberta, and in the dark brown and shallow (thin) black soil zones in western and central Alberta. The fertilizers used were ammonium phosphate (11-48-0) at rates of 25 to 50 pounds per acre; ammonium sulphate at 27.5 pounds per acre; single superphosphate at 50 pounds per acre; triple superphosphate at 56 pounds per acre and complete fertilizer at 37 pounds per acre. The plots were laid out in quadruplicate and the yields obtained were analysed statistically to determine which results were significant.

In general, it can be stated that the greatest responses occurred in the shallow black soil zone, and in the northern portion of the dark brown soil zone with increases up to 7.8 bushels per acre on the shallow black clay soil at Pincher Creek in 1948. Practically no response was noted on any soil type tested in the brown

soil zone east of Lethbridge with the exception of the heavy soils in the northern part of this area. In the dark brown soil zone greater responses occurred also on the heavier soil types.

Practically without exception, where responses from fertilizer occurred on the dark brown or shallow black soils, the fertilizers used contained phosphate. The use of nitrogenous fertilizers alone showed a decrease in the yields of wheat, and the addition of potash to a phosphatic fertilizer did not give an additional increase. It appears therefore that in many areas of southern Alberta, when rainfall is ample, the supply of available phosphates may be deficient in the soil.

The protein contents were determined on the wheat in these tests where fertilizers were applied at 25 to 56 pounds per acre, but no significant differences were noted. However, no additional test plots on eroded soils, in the dark brown soil zone where ammonium phosphate fertilizer was broadcast in 1948 at excessive high heavy rates, after the wheat was up (200 pounds per acre), significant increases occurred both in the yield of wheat and also in its protein content.

TENDERS

The following buildings and lands are offered for sale by tender:

OLD SCHOOLHOUSE AT SPRING COULEE AND SITE OR PART

OF SITE—Tenders may be submitted on the Schoolhouse separately or on the Schoolhouse and a site 100 feet each way, or on the Schoolhouse and the complete site 250 feet by 318 feet.

**IT'S HERE...
today!**

**MASSEY-HARRIS
HOME FREEZER**

From now on you can have strawberries, asparagus, ice cream, juicy steaks, fish, game, fruit juices—not just when they come in season—but anytime. Just reach into your Home Freezer... more food, more kinds of food, better food, always at your finger tips. And think what you'll save by shopping in quantity—when prices are right and quality is at its peak.

Home Freezing is the modern way to preserve food, to keep it in all climates while conserving quality and flavor. The MASSEY-HARRIS Home Freezer is big enough for a large family yet sound economy for even a family of two.

Market gardeners, dairymen, fruit growers, townfolk and villagers have proved the MASSEY-HARRIS Home Freezer. Now you can get yours—and with no waiting.

Two compartments with a capacity of ten cubic feet—and every inch for food. (Larger size with three compartments—17 cubic feet capacity.) Costs very little more to run than an ordinary electric refrigerator—easy to install!

**NOW THE GREAT NEW LINE OF
MASSEY-HARRIS
TRACTORS**

BUILT FOR SERVICE

Here are the five models of the great new line of Massey-Harris Tractors—all engineered for your particular requirements. From the big "55" to the small Pony each one is packed with power—power with economy.

Drive any one of these five new models and experience a new thrill in tractor performance. The Valve-Ride seal mounted on hydraulic plunger and coil spring; the self-starter button that spurs your motor to instant, surging life; the slim, sleek hood that gives you maximum vision of your land ahead; the big tire sizes that mean more speed, more traction.

For the best in tractor performance be sure the tractor you use is one of these fine Massey-Harris models.

A SIZE FOR EVERY FARM

**NEW... THE MASSEY-HARRIS
Roto-Lift
ONE-WAY DISC**

The Roto-Lift One-Way Disc is a new Massey-Harris development and a radical departure from the conventional system of raising or lowering the discs with the frame of the machine.

The Roto-Lift raises and lowers the discs by a power driven rotary action—the axle and frame remaining fixed. The light draft and full steering control of the Roto-Lift One-Way Disc enables you to cover your field quicker and more efficiently because the Massey-Harris Roto-Lift One-Way Disc can turn left, right or back up.

**SAVE TIME, MONEY AND LABOR WITH THE NEW
MASSEY-HARRIS ROTO-LIFT ONE-WAY DISC**

Roto-Lift Action Instant Depth Control
Full Steering Control Simplicity of Design

MASSEY-HARRIS ALL-STEEL DRILL

THE DRILL WITH ALL THE FEATURES

- Strong, Rigid Steel Construction
- Accurate Force Feed Grain Runs
- Constant Height Power Lift
- Enclosed Gear Drive

Unless your crop is seeded right you cannot hope to obtain maximum profit from your year's farming operations.

Your best insurance in getting your crop off to a good start is a good seed drill, one that has a reputation for accurate, positive seeding and uniform depth of drilling.

Don't gamble with an old, broken down drill. Protect your profits this year by seeding your crops with a NEW Massey-Harris All-Steel Drill.
